N O T E S

1. The Club does not undertake to supply the material quoted herein at the prices mentioned. This booklet is but a guide, the prices being culled from the London market and thus may differ elsewhere in the world.
2. First Day Cover prices will not all be accurate, as "extras" frequently occur, i. e. Registration labels, seals, whether or not posted on location, etc., must influence matters - the majority may be taken as "minimum" figures.
3. Section B, as such is only the opinion of the compilers and readers must exercise their own judgment.

4. Early issues are prone to forgers and Roumania and Turkey have fallen victim to bogus cover producers with fake cancellations so BEWARE!
5. The details shown under "General Information" is an innovation and it is hoped that considerable improvement will be made in the next edition.
6. No quotations are available for items not priced and readers should judge them on their own merits.
7. Gibbons "Simplified" catalogue numbers have been used throughout.
